Are refurbished solar panels for sale?

You'll also see refurbished panels for sale. Often when commercial or utility solar farms update their equipment, refurbishers will thoroughly test the used panels and repair or replace internal components prone to wearing out, like cables and connectors, before reselling them.

Do refurbished solar panels come with a warranty?

Refurbished: Some refurbished solar panels come with a refurbished warranty. These warranties have shorter coverage periods than new solar panels. Refurbished solar panel warranties range from three months to nine years. Some refurbished panels don't come with a warranty at all.

Are refurbished solar panels better than used?

Refurbished: Most refurbished solar panels can operate like new because some faulty or worn-out parts have been replaced. However, they don't usually last as long as a new panel. Used: Expect used solar panels to display some form of degraded performance. They may also break faster than a refurbished panel.

Are used panels cheaper than refurbished panels?

Refurbished panels are often cheaper than new. They cost more than used panels because they've been fixed up nice. Prices for used panels can vary a lot. It depends on their condition. Some look almost new, others have seen some wear. Make sure you know what shape they're in before you buy.
