

Dewei Photovoltaic Panel Installation Contract

What is a solar photovoltaic (PV) installation?

A solar photovoltaic (PV) installation comes with a proposal and a contract, so if you're thinking about going solar, it's important to understand what you'll be signing.

What is a PV installation agreement?

The Installation Agreement is a lump-sum agreement between the project company, as owner of the project, and the installation contractor, the contractor that will be responsible for installing the PV system, providing the balance of plant and commissioning the plant.

What makes a good solar installation contract?

Like most contracts, home solar contracts can be filled with all kinds of terms, language, and details that the average person might not be familiar with. A good solar installation contract is designed to protect both you and your solar provider, so it's important to understand the various sections and what they mean.

What should a solar panel contract include?

Your solar panels' contract should estimate how much energy will be produced and what savings the client can expect. This section of the agreement should clearly outline how the system's performance will be monitored and what guarantees are given. Solar power has many benefits for businesses and commercial properties, such as

Can a provider sell a photovoltaic system to a customer?

WHEREAS, Provider has offered, at his sole cost and expense, to install, maintain, own, replace, repair, and operate a photovoltaic system at one or more of the Property (ies) and to sell Solar Services (as hereafter defined) produced by the solar photovoltaic system to Customer as provided in and subject to the provisions of this Agreement.
