

How to use the extra solar generator in Minecraft

What is a solar generator?

The Solar Generator is a block added by Extra Utilities. It produces Redstone Flux (RF) from sunlight. Normal energy output values are up to 40 RF/t in the Overworld and a constant 40 RF/t in The End. However, this generator cannot generate and emit power at the same time, making it more complex than the solar panels from other mods.

How does solar energy work in Minecraft?

In Minecraft, solar energy works using daylight sensors. These sensors detect daylight in the sky and output a redstone signal corresponding to the sunlight's position. At the sun's maximum daylight (high noon), up to 15 redstone-activated blocks can be activated.

How much RF does a solar generator produce?

The Solar Generator is a block added by the Extra Utilities mod. It produces up to 80 RF per tick depending on the time of the day when exposed to sunlight. It averages around 40 RF/tick in the Overworld and a constant 40 RF/t in The End. The internal energy buffer is 100,000 RF. The charging and transmit cycle is toggled with a Redstone signal.

Can a solar generator be used at night?

A daylight sensor and inverter can be used to have the generator generate during the day and output its energy at night. The Solar Generator is disabled. Community content is available under CC BY-NC-SA unless otherwise noted. This page is about the Solar Generator added by Extra Utilities. For other uses, see Solar Generator.

How does a solar generator work?

Additionally, Solar Generators begin automatically transmitting energy when sunlight power level drops to zero, (at night or when the sky is obstructed by an opaque block). The Solar Generator keeps its RF charge when removed. It also shows the power level of sunlight.

The Solar Generator is a block added by the Extra Utilities mod. It produces up to 80 RF per tick depending on the time of the day when exposed to sunlight. It averages around 40 RF/ tick in ...

The subreddit for all things related to Modded Minecraft for Minecraft Java Edition --- This subreddit was originally created for discussion around the FTB launcher and its modpacks but ...

The Overclocked Generator is a generator added by Extra Utilities 2 is the upgraded version of the Furnace Generator and will consume any solid fuel (e.g., fuels that can be used in a vanilla ...

How to use the extra solar generator in Minecraft

Discussion of solar photovoltaic systems, modules, the solar energy business, solar power production, utility-scale, commercial rooftop, residential, off-grid systems and more. Solar ...

Very small contraption on how to automate the solar generator to work efficiently without the need of the player switching it to generate/transmit. Mods used in this tutorial: RF Tools - RF ...

The Halitosis Generator is a block added by Extra Utilities 2 burns Dragon's Breath to produce Redstone Flux (RF). It will burn 1 bottle over the course of 10 minutes to produce a total of ...

The QED is a block added by the Extra Utilities mod. Functioning as a special crafting table, it has an interface similar to that of the vanilla Crafting Table and is used to craft specific items from ...

Today, we look at Solar Generators, from the mod Extra Utilities, and how to optimize them via vanilla redstone. All information is correct at the time of the videos release. Mods: Extra...

The Solar Generator x64 is a tile entity added by Extra Utilities. It produces Redstone Flux (RF) from sunlight. Normal energy output values are up to 2,560 RF/t in the Overworld, and a ...

I am foolishly trying to power a MFR Laser Drill using Solar Generators on a Direwolf20 1.6 server, and I'm trying to figure out how to design a system that effectively ...

Due to the relative weakness of power generation, Solar Panels are often assembled into so-called Solar Flowers (when using Copper Cable), whereby as many Solar Panels as possible are connected to a BatBox using ...

Transfer Node (Energy) is a block added by the Extra Utilities mod. It accepts energy (RF and MJ) and transmits it through pipes. The Node constantly search for machines that accepts energy ...

There are so many different names for Modded Electricity. The Furnace Generator (the only one i've tried and also the only thing that's actually worked so far) creates "RF", which can be used ...

This page is about the Transfer Node (Energy) added by Extra Utilities 2. For other uses, see Transfer Node (Energy). The Transfer Node (Energy) is a block added by Extra Utilities 2. It extracts RF energy from the block it is placed on, ...

Extra Utilities mod for Minecraft adds tons of new items. With this first part we are going over the different generators, mills, and solar panels to get all...

The Manual Mill is a block added by Extra Utilities 2. Right-clicking it will start turning it, generating 15 Grid Power (GP) while it is being turned. The turning will stop when the user moves their ...

How to use the extra solar generator in Minecraft

I am trying to set up an Applied Energistics 2 system, and want to power it with the solar generators of Extra Utilities. I figured an ME energy acceptor would do the trick, but I ...

The Pink Generator is a block added by Extra Utilities 2 generates Redstone Flux (RF) from Pink Dye, any item with Pink Dye in its crafting recipe (such as Pink Wool), or any items that ...

Solar generator probably has enough buffer to store more than 1 daytime's power, and it has a slow transition speed to/from charging/discharging. So if you want to get all out of it, you will ...

The Ender-Thermic Pump is powered by the lava generator, which draws the lava it needs from the tank, and the tank is filled by the lava gathered by the pump; creating an infinite cycle that generates more lava than is used. This lava is ...

The gbg can in some packs produce 70k rf/t at least, not sure about the nether star one but zhe gbg has the added bonus that it only produces the specific amount of energy used, so it will ...

This page is about the Survival Generator added by Extra Utilities 2. For the Survivalist Generator added by Extra Utilities, see Survivalist Generator. The Survival Generator is a block added by ...

The Survivalist Generator is a tile entity added by Extra Utilities produces 5 Redstone Flux (RF) per tick using solid fuels, with Coal taking 800 seconds (13m20s) to be burnt. It is also more ...
