Rooftop photovoltaic panel installation contract price

How much does a solar panel installation cost?

The average cost of a 10.8 kW solar panel installation on EnergySage is $20,948after federal tax credits. You'll probably save anywhere from $28,000-$120,000 over 25 years by going solar. Solar panels are just 12% of the total cost of a solar panel installation.

What is a good price per watt for rooftop solar?

A good price per watt for rooftop solar provides a balance of savings potential and robust warranty and service coverage. Based on recent solar pricing trends from the SEIA,this balance can be found in the $3-4 per wattrange for residential solar projects.

Should you install a solar energy system on your roof?

When you install a solar energy system, you're getting more than just solar panels on your roof. Multiple pieces of equipment, such as racking, wiring, and inverters, must be installed so the solar panels can power your home. There are also a number of costs that ensure your system is installed correctly and that the solar company can operate.

Is rooftop solar a good investment?

At its core, rooftop solar is a way to pre-purchase 25 years of electricity in order to hedge against ever-rising utility rates - quite similar to buying bulk coffee grounds instead of individual Venti Lattes from Starbucks. The return on this long-term investment depends on a handful of key factors, including the price of the solar system itself.

Should you replace your roof before installing solar panels?

And if you're also replacing your roof before the solar system installation,consider steel standing seam. It combines the lightweight strength to support solar panels and the longevity to outlast them. The ideal roof for solar is one facing south with enough slope to properly tilt the panels and enough room for them.

What are soft costs for a solar and battery project?

Soft costs include administration costs for the company, customer acquisition and marketing, system design, permits and fees for connecting to the grid, and labor for installation. Here's the NREL's latest soft costs breakdown of a solar and battery project:
